

The James Campbell Memorial Nightjar Rally.

**Saturday 16<sup>th</sup> November 2024**

As some of you may be aware, James died unexpectedly earlier in the year, hence the title above.

So, in his memory I will be running the event this year as we had planned. In a break from tradition we shall be starting in South Oxfordshire and finishing in West Berkshire!

To those unfamiliar with the Nightjar, this is a night time scatter rally. A number of clues have to be solved by visiting various locations using the Ordnance Survey maps. Any car can be used, modern cars are in one class and Vintage in another. Map reading skills required and torches! Some clues may involve an orienteering style route on foot to find the answers. This is optional as there are plenty of straightforward (?) clues located close to the highway. We start at about 5pm and finish about 10pm with a hot meal.

This is an advance 'keep the date' announcement, so please indicate your interest in the event with a quick email and the Regulations will be sent to you in due course.

It will probably be the last running of this event, which has been running since 1976, unless we get a larger entry than the 12 of last year.

So please pass on this email and try and encourage friends and families who might enjoy the challenge to give it a go.

Richard Scott
